

high frequency induction welding machine used for brass soldering air condition

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering induction melting and induction surface treatment applications
<http://www.uihm.com>

Our UM-40AB-HF high frequency welding machine can be used for welding, weld smooth, oxidation, good sealing products such as air conditioning accumulator, reservoir tank, vapor-liquid separator, oil separator, refrigeration parts, it will bring pressure-resistant 3.0MPa, high welding efficiency, more cost savings. Solder with 35% silver solder welding
