

What is the HS code of induction heating machine

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering induction melting and induction surface treatment applications
<http://www.uihm.com>

851440****(8514400000/8514400090)

. Description

Other equipment for the heat treatment of materials by induction or dielectric loss

. Goods ever classified under this HS code(usually 8514400000~8514400090)

intermediate frequency interaction smelting furnace ,internal heating type frame heater ,isothermal saltpetre salt furnace ,medium frequency induction heating machine ,medium frequency sensing heat equipment.

851580****

. Description

Other welding machines and apparatus

. Goods ever classified under this HS code

Ultra high frequency induction heating machine

851420**

. Description

Furnaces and ovens functioning by induction or dielectric loss

. Goods ever classified under this HS code

intermediate frequency aluminum ingot induction diathermous furnace ,portable high frequency induction heating machine

851680**

. Description

Electric heating resistors

. Goods ever classified under this HS code

electrothermal electrical appliance ,electrothermal film ,electrothermal floor-heating system ,electrothermal tube ,high frequency electric induction heating machine ,high frequency porcelain heating ring
