

# induction quenching for axles (fan motor shaft)

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering, induction melting and induction surface treatment applications

induction quenching for axles (fan motor shaft)

Workpiece: Diameter: 5mm~100mm, length: 50mm~120mm

Target: quenching for HRC 52, 1 PC/Second

Power: 35KW

Induction Heater: UM-40AB-HF

Cooling Material: Quenching Oil (If using water, the shaft will be easy out of shape)
