

induction levitation melting or suspended heating

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering, induction melting and induction surface treatment applications
<http://www.uihm.com>

For levitating ; the steel rod in the air by induction coil, the shape of induction coil is very important, the direction of coil on top need to be different from the bottom ones.
